

Systemic Change Projects – 2016 Request for Proposals

REVISED 3/11/2016

Project Purpose and Description:

The National Council of the United States Society of St. Vincent de Paul has been awarded a grant from an anonymous foundation to fund Systemic Change Projects. Proposals are being solicited from SVdP Conferences and Councils. A total of \$200,000 is available with an individual maximum grant award of \$5,000. Any SVdPUSA Council or Conference may apply that meets the outlined proposal guidelines.

Systemic Change Projects are projects that aim to achieve a transformation in the lives of those living in poverty, particularly those from generational poverty. These new longer-term strategies include: mentoring individuals or families, connecting them to educational programs that build personal resources and skills, collaborating with other organizations with similar aims, and advocating to change unjust systems. The goal is to move people permanently out of poverty by empowering them to make life changes and improve their lives, by providing long term, supportive mentoring relationships, and by working with community partners to address the root causes of their poverty. The Society of St. Vincent de Paul is committed to walk with individuals on their journey out of poverty. Examples of appropriate projects, but NOT limited to these are: the Bridges Out of Poverty -- Getting Ahead Program, Prison Re-entry, Holistic skill building programs with mentor follow-up, Alternatives to predatory lending practices, Long term employment programs,.....
